

MONTANA AGRICULTURAL EXPERIMENT STATION

SUMMER 2016 INTERNSHIPS

Paid internships are available at each of the seven MAES Research Centers. Each intern will serve eight weeks and receive **\$4500** in remuneration, including a **\$400** tuition credit. *On-site housing is available at some of the centers. Interns will assist with various research projects, farm and ranch related tasks and more. Selected interns will need to seek internship credit approval through their academic department by April 1st, 2016. This will be a great item for your resumé!

TO APPLY: Submit a letter of interest including your full name, major, year in school and contact information. Please include a 300 word essay on why you are interested in a Research Center internship. Email completed applications to Dr. Barry Jacobsen, Associate Director, Montana Agricultural Experiment Station, at: bjacobsen@montana.edu. **Deadline: February 26, 2016.**

For more information regarding an individual center & potential internship experiences, contact the Research Center Superintendent:
