

**THE PROGRAM**  
**DAN SCOTT RANCH MANAGEMENT**  
**BECOME A PARTNER**

Launching a new program at a public university requires the involvement and investment of our local ranching industry. The **Partner Program** will provide ranching industry leaders the opportunity to invest in the program and connect with campus leadership and our extraordinary students.

You have the opportunity to provide foundational support to help create the preeminent ranch management program in the Northern Great Plains and Intermountain West. Partner investment priorities include 3 critical areas: current use fund for greatest need, student scholarships, & program and faculty development.

***Levels of investment include:***

**Lead Partner - \$25,000 per year for 5-years**

- Opportunity to offer an internship to a student in the program;
- Individual meeting with program leader, department head or dean to discuss program updates;
- Participation in career development activities for students such as hosting a workshop at your ranch or business, giving a guest presentation in coursework, and interviewing students for job placements;
- Named scholarships for students in the program;
- Seat on the Ranch Management Industry Advisory Council; and
- Partner recognition at program events.

**Major Partner - \$10,000 per year for 5-years**

- Opportunity to offer an internship to a student in the program;
- Named scholarships for students in the program;
- Seat on the Ranch Management Industry Advisory Council; and
- Partner recognition at program events.

**Industry Partner - \$5,000 per year for 5-years**

- Seat on the Ranch Management Industry Advisory Council; and
- Partner recognition at program events.

**Supporting Partner - \$1,000 per year for 5-years**

- Partner recognition at program events.

## NAMING OPPORTUNITIES LEAVE A LEGACY

Leave a legacy through naming a part of the Ranch Management Program at Montana State University. The innovative program will sustain and preserve the agricultural heritage of the Northern Great Plains and Intermountain West by graduating students who have the breadth of knowledge and diversity of skills needed to employ prudent ranching practices that create value and improve the natural resources vital to our land.

### **Internship Program - \$1,000,000**

These funds will be used to develop and maintain a highly structured and learning outcome-oriented internship program. The internship program will be vital to the systems level learning approach.

### **Continuing Education Series - \$1,000,000**

These funds will be used to develop a continuing education program in cooperation with MSU Extension. This program will serve to provide continuing education to graduates and Montana ranch managers in the form of workshops, seminars, and distance-learning opportunities across Montana.

### **Program Seminar Series - \$500,000**

These funds will be used to support key speakers and short course instructors. The main focus is to provide current information and best practices on topics of importance to the ranching industry by regionally and national known experts.

### **Founder's Circle - \$500,000**

Founder's Circle donors will have perpetual recognition of founding a program that creates a pipeline of future ranch managers with the skills and expertise to have a tremendous impact on sustaining the agricultural heritage of the Northern Great Plains and Intermountain West. The Founder's Circle will be limited to *seven* members and only *four* opportunities remain.

### **Full Tuition Scholarship - \$250,000**

Funds for scholarships are available to MSU in support of an enrolled student for the purpose of off-setting tuition, fees, charges levied by MSU and other expenses associated with advancing their education and research.
